Altasciences Clinical Research Companies Recognized for Leadership

LAVAL, QC, Canada (March 15, 2017) — Altasciences Clinical Research proudly announces that its companies, Algorithme Pharma and Vince & Associates Clinical Research, have each been awarded multiple 2017 CRO Leadership Awards.

This is the fourth consecutive year that Algorithme Pharma has been recognized by the industry. This year, Algorithme Pharma excelled in the Expertise and Reliability categories, earning two distinct CRO Leadership Awards.

For their third consecutive year, Vince & Associates Clinical Research received a total of five CRO Leadership Awards in the following categories: Capabilities, Compatibility, Expertise, Quality and Reliability.

"These awards recognize our team's ongoing dedication to go above and beyond to address the ever-evolving and increasingly complex needs of sponsors, while maintaining a high-level of participant engagement and safety. I couldn't be more proud!" said Chris Perkin, CEO.

Altasciences offers all of the services required for early stage clinical development, with a flexible and customized approach. They work as an extension of their clients, as partners, proactively identifying any obstacles to avoid delays and extra costs, and sharing valuable information to ensure the best solution is provided, including determining the ideal strategies to recruit healthy normal volunteers and patient populations.

"Life Science Leader is proud to be working with ISR Reports to honor those CROs that have proven themselves to be the top performers in Compatibility, Capabilities, Expertise, Quality, and Reliability. The winners were decided by looking at 27 different performance metrics, as rated by decision-making executives at biopharmaceutical companies. The CROs receiving an award this year are truly at the top of their class, and are deserving of the recognition they receive. Being a top performer in any of these categories shows a level of expertise and commitment to clinical trials and serving the needs of biopharmaceutical companies and their patients." Ed Miseta, Executive Editor, Life Science Leader.

More About Altasciences

[Altasciences Clinical Research](#) encompasses [Algorithme Pharma](#) in Montreal, QC, [Vince & Associates Clinical Research](#) in Overland Park, KS, as well as [Algorithme Pharma USA](#) in Fargo, ND, thereby making it one of the largest early phase clinical CROs in North America.
