Altasciences CEO Named PharmaVOICE 100 Most Inspiring People in the Life-Sciences Industry

LAVAL, QC, Canada (August 15, 2016) — Altasciences, one of the largest early phase clinical CROs in North America, is pleased to announce that Chris Perkin, CEO, has been named one of the 100 Most Inspiring People in the Life-Sciences Industry by *PharmaVOICE* magazine for the second time.

Chris was nominated by his peers, colleagues and employees for being the ideal leader. “He never focuses on problems, only solutions. He delivers on his promises and is able to transform a mass of information into concrete projects. The great thing about Chris is that he is open to all ideas and is always looking to innovate,” said Cathy Konidas, Vice President, Global Business Development, who has worked with Chris for 15 years.

Every year, *PharmaVOICE* receives thousands of nominations from readers for the most influential corporate leaders in their field. Submissions detail how an individual has inspired them, motivated them, and positively impacted them or their company. Candidates are selected based on their ability to inspire peers through their actions, as well as exhibiting strong leadership qualities, fearless and unique approaches to problem solving, and innovation.

“Thank you to all those who took the time to nominate me; I am touched,” said Chris Perkin. When asked how he would like to be remembered for his work in the industry, Chris replied: “As someone who never compromised on honesty and integrity, and was able to encourage and motivate others to achieve more than they expected.”

About Altasciences

[Altasciences Clinical Research](#) encompasses [Algorithme Pharma](#) in Montreal, QC, [Vince & Associates Clinical Research](#) in Overland Park, KS, as well as [Algorithme Pharma USA](#) in Fargo, ND, thereby making it one of the largest early phase clinical CROs in North America.
