bcopeland@vinceandassociates.com**Vince & Associates Clinical Research Adds Senior Biostatistician to Support Growth in Human Abuse Liability Trials**

(Overland Park, KS, August 5, 2014) — Vince & Associates Clinical Research, a premier provider of early phase clinical research services today announced the appointment of Bijan Chakraborty as Principal Biostatistician.

Bijan's experience in the complex statistical analyses of Human Abuse Liability (HAL) studies, which includes involvement in the advancement of statistical methodology for HAL trials, further reinforces Vince and Associates' commitment to this growing area.

"The addition of a biostatistician with Bijan's experience and specialization in HAL studies to the biometry team is a critical component in the full services offering. We are very excited to welcome him to the team," said Petra Hillebrand, Vice President of Integrated Services.

With over 15 years industry experience, from the Pharma and CRO sector, Bijan will play an integral role in the integrated clinical support services team focused on Human Abuse Liability studies.

Dr. Brad Vince, CEO and Medical Director of Vince and Associates, states, "Having Bijan join our team further demonstrates our commitment to our global biopharmaceutical clients in the conduct, execution and statistical analysis in these complex clinical trials."

About Vince & Associates Clinical Research

Vince & Associates Clinical Research has provided clinical research services to the biopharmaceutical industry for nearly 15 years. The research professionals at Vince & Associates are proud to be recognized in the industry as a "Center of Research Excellence."

Vince & Associates currently operates a state-of-the-art, multimillion-dollar, 90-bed clinical pharmacology unit that combines the ultimate in subject safety and luxury. This early development unit has the upscale atmosphere necessary for the recruitment and retention of study volunteers in both short- and long-term clinical trials. From the safety and security of the controlled access unit to the added features of a movie theater and game rooms, no detail has been overlooked.
