Dr. Brad Vince Presents at National Institute on Drug Abuse Workshop

Overland Park, KS – [Vince & Associates Clinical Research](#), an Altasciences Clinical Research company, is a leading provider of comprehensive, early development clinical research services for the global biopharmaceutical industry.

Today they announced Dr. Brad Vince, CEO and medical director of Vince & Associates Clinical Research, was an invited lecturer on November 2, 2015 at the [National Institutes of Health/National Institute on Drug Abuse](#) Workshop. This workshop was created to answer the question “How can we increase enrollment of appropriately motivated, treatment-seeking subjects in medication trials for stimulant use disorders?”

Dr. Vince’s presentation was entitled *Methods of outreach for stimulant use disorder medication trials: Contract Research Institute Perspective*.

“I was honored to be invited to speak alongside NIDA specialists and academic thought leaders. I enjoyed the opportunity to provide insight from a contract research organization perspective on study volunteer recruitment for clinical trials involving stimulants,” said Dr. Vince.

The Physician Investigators at Vince & Associates Clinical Research have been working with both recreational drug users as well as substance dependent volunteers for more than a decade, and are experienced in the identification of appropriate study subjects for successful clinical execution for all types of [substance abuse studies](#).

The content above is solely the responsibility of the authors and does not necessarily represent the official views of the NIH or NIDA.

About Vince & Associates Clinical Research

[Vince & Associates Clinical Research](#) has provided clinical research services to the biopharmaceutical industry for 15 years. The research professionals at Vince & Associates are proud to be recognized in the industry as a “Center of Research Excellence.”

Vince & Associates currently operates a state-of-the-art, multimillion-dollar, 100-bed clinical pharmacology unit that combines the ultimate in subject safety and luxury. This early development unit has the upscale atmosphere necessary for the recruitment and retention of study volunteers in

both short- and long-term clinical trials. From the safety and security of the controlled access unit to the added features of a movie theater and game rooms, no detail has been overlooked.

About Altasciences

The [Altasciences](#) brand encompasses the [Vince & Associates Clinical Research](#) site in Overland Park, KS as well as the [Algorithme Pharma](#) sites in Fargo, ND and Montreal, QC, thereby making Altasciences one of the largest early phase clinical CROs in North America. Altasciences provides the best quality early phase clinical development services to an international customer base of pharmaceutical, biotechnology and generic companies, including the necessary support services in this critical stage of drug development.
