### **Vince & Associates Clinical Research Sponsors Inaugural Meeting of Boston Pharmaceutical & BioScience Society**

**(Overland Park, KS, January 3, 2013)** — [Vince & Associates Clinical Research](#) sponsored and presented at the inaugural meeting of the [Boston Pharmaceutical & BioScience Society](#) (Boston-PBSS) held in Boston. The meeting assembled scientists and other pharmaceutical professionals to discuss “Organ-on-a-Chip: Advances and Potential Applications in Pharmacology, DMPK, Drug Safety and Beyond.”

Boston-PBSS is a nonprofit organization made up of professionals in various pharmaceutical and life science fields, working for organizations such as the biotechnology and pharmaceutical industries, instrumentation and analytical product suppliers, universities, government laboratories and contract research organizations. It is a sister organization to similar societies based in San Francisco and San Diego.

“We are proud to support this organization and its mission to promote the exchange of ideas and provide education and growth opportunities in the pharmaceutical and life science industries,” said Dr. Brad Vince, president and medical director of Vince & Associates.

“It was our pleasure to highlight the specialized recruiting capabilities Vince & Associates provides in executing early clinical research studies, specifically those including special populations, which are so crucial to the development programs of the Boston biotechnology and pharmaceutical community,” said Lorraine M. Rusch, Ph.D., vice president at Vince & Associates.

#### **About Vince & Associates Clinical Research**

[Vince & Associates Clinical Research](#) has provided clinical research services to the biopharmaceutical industry for more than a decade. The research professionals at Vince & Associates are proud to be recognized in the industry as a “Center of Research Excellence.” Vince & Associates has become a premier clinical research site by utilizing The Physician Research Model<sup>®</sup> of operation where study teams are led by highly experienced principal investigators intricately involved in all aspects of the clinical trial process.

-more-

Vince & Associates recently opened a state-of-the-art, multimillion-dollar, 90-bed clinical pharmacology unit that combines the ultimate in subject safety and luxury. Boutique-hotel-level amenities of the facility feature 10 uniquely designed research suites. The 20-inch, bedside, touch-screen entertainment systems allow study volunteers individual access to watch TV and movies, surf the Internet or play a host of games. This new unit has the upscale atmosphere necessary for the recruitment and retention of study volunteers in both short- and long-term clinical trials. From the safety and security of the controlled access unit to the added features of a movie theater and game rooms, no detail has been overlooked.
